

How to Submit Screening Reports

Georgia Lions Lighthouse Foundation

partners with local Lions Clubs to host vision screening events throughout Atlanta and surrounding counties.

To dates we've done 783 eye exams (+65% vs. a year ago), fabricated 2,704 prescription eyeglasses (+420%) and we served 1,746 patients via mobile clinics (+139%) – all substantial increases over the same time frame a year ago.

These numbers are calculated through a collective effort from local Lions Clubs submitting screening reports from events in their areas.
