

How to Access Spot Machines

A **vision screening** is a test of an individual's vision that checks for potential sight problems caused by eye conditions such as hyperopia, strabismus, and astigmatism (among others).

A vision screening is NOT a substitute for a full eye exam.

Georgia Lions Lighthouse Foundation is proud to partner with volunteers from local Lions Clubs around the state to provide **SPOT screeners** for local community/school screenings for reservation.

For more information on how to reserve or use a SPOT machine contact: Fran Schefer at fschefer@lionslighthouse.org or Nanon Morrison at nmorrison@lionslighthouse.org
